SAFETY CLUTCH SAVES MEN WHEN CABLE BREAKS

VIRGINIA CITY, June 6.—Had it not been that the safety clutch worked perfectly, three men would have been dashed to death in the Combination shaft this morning.

They entered the cage at the 1700-foot level at 3:30 and signalled to move upward the cable broke about 150 feet above them and the severed portion coiled down over them like a snake.

The cage dropped down the guides, but the safety clutch took hold and saved them. It was 200 feet from the point they stopped to the bottom of the shaft.

The men climbed to the surface on the ladder.

HAVE INCREASED NUMBER OF THEIR FEMALE HELP

SACRAMENTO, Calif., June 6.—A special report devoted chiefly to the enforcement of the more important labor laws—child labor, women's 8-hour law, payment of wage pay check and employment agency—by State Labor Commissioner McLaughlin, for the six months ending December 31, 1911, is off the press today. McLaughlin asserts that after inspection of 3,000 establishments he is convinced that California leads all states in percentage of children kept in school and out of the factory and store. The commissioner finds that most employers of women have increased the number of female employees since the 8-hour law was passed.

TONOPAH WILL HAVE GREAT AVIATION MEET

J. T. Tarnahan, who represents the birdmen, Frank Bryant and Roy Francis, arrived this morning in response to a telegram from the local committee and he will confer with the Fourth of July committee this evening. The advance man has in company with several of the committee been looking over the ground and he is confident that the aviators will make a record flight here. The machine which is used is a biplane with an engine capable of taking up 400 pounds of baggage in addition to the operator at sea level and so confident is Mr. Tarnahan that his fellow flyers will make it a most interesting flight that he is willing to have the contract read a successful flight or no money.

The flights that have been made by Bryant and Francis in San Francisco, Arizona and other points stamps them as being aviators of the first rank and their willingness to make a contract that calls for a successful flight or no pay shows that they have confidence in their ability to overcome the twisting air currents of this country.

ATTENTION, YOU BASE BALL FANS

Manhattan will be in Tonopah next Sunday with blood in her eye. They are determined to wipe Tonopah off the map, as far as baseball is concerned, and the way they are playing ball more than justifies the amount of practice Tonopah is doing to get in shape. Many of the old players are rounding into shape and it looks as though a good close game should be the result.

Don't forget the date, Sunday, June 9th, at Volunteer park. Admission 50 cents.
